

Brandon Hernandez Full-Stack Software Engineer

brandoncinthia0621@gmail.com | (720)-635-1612 | Denver, CO |

Skills

Languages: JavaScript, Python3, HTML, CSS, SQL | **Front-End:** React, Redux, Vue, Vuex | **Back-End:** Flask, Express.js, RESTful APIs | **Databases:** PostgreSQL + Sequelize + SQLAlchemy, MongoDB + Mongoose

Software Engineering Experience + Projects

Software Engineering Fellow | General Assembly (Remote) | July 2021 - Oct 2021

- Applied practiced full-stack software engineering concepts to develop intuitive, responsive, and secure web applications over a 500+ hours/12 weeks software development immersive. Designed and built full-stack applications while leveraging architectural modeling, prototyping, and version control tools for individual and collaborative projects.

Key Projects

BoxerGram | *Social Media App for boxers and boxing fans*

- Build a social platform using React to render the interface, SQL for data management, and **JWT** for credentials **validation**.
- Implemented a **backend server** using Express and Sequelize, along with AWS S3 to upload and serve image data.

FilmZilla | *Movie Review App*

- Worked with a group using Git and Github to manage version control, Rendered front end with React and Bootstrap
- Backend managed with Sequelize and express and JSON web token to secure app and add authorization functionality.

The Comic BookShelf | *Comic Book Tracking app*

- Utilized the **MERN** stack (MongoDB, Express, React, Node.js) to create an application to track comic books and make recommendations. Backend functionality developed with MongoDB and Mongoose and Routes handled Via Express.

Murder Mystery Js | *Point and Click Mystery game*

- Point and Click Browser game created using HTML, CSS and JavaScript
- Designed Responsive UI and custom game logic.

Experience

Professional Bureau of Collections of Maryland Inc. | *Dec 2019 - Jul 2021*

- Reached out to borrowers with delinquent accounts to pursue payments and negotiate payment plans.
- Collaborated with a team to encourage open sharing of ideas and solutions.

Maximus | *Jul 2019 - Dec 2019*

- Placed or answered phone calls, providing excellent customer experience by applying good listening skills
- Informed individuals about eligibility requirements, application processes and procedures for the Wyoming Medicaid Program.

Alliance Data | *Mar 2018 - Jun 2019*

- Answered average of 90 to 120 calls per day addressing customer inquiries, resolving issues, and providing product information
- Implemented best practices in fostering exceptional customer care support and satisfying customers.

Education

General Assembly Software Engineering Immersive - Full-Stack Software Engineer
Certificate | Oct 2021
